Whether you're shipping a single container or multi shipment consignments, DMC is the real-time freight marketplace that helps you move faster.

Deliver My Container is the trusted import/export logistics service partner of the BMF and the service they provide is ideal for BMF members who need to arrange their own freight.

By using the DMC platform you can compare carefully vetted freight forwarders, see clear pricing up front, and choose the option that works best for your budget and timeline – without endless emails or hidden costs.

Deliver My Container (DMC) is a UK-based forward thinking digital freight marketplace.

Their aim is specifically to take the stress out of international shipping. The DMC platform allows BMF members who are importers to compare live quotes, secure space instantly, and easily manage end-to-end shipments.

What this means for BMF members

Users benefit from:

-  **Exclusive, pre-negotiated rates** on key trade lanes
-  **Guaranteed capacity** during peak seasons
-  **A single platform** to manage all bookings, documentation, and tracking
-  **Expert support** from their dedicated account team
-  **Full visibility** of costs, timelines, and carrier performance
-  **No charges** or unexpected fees. We are thrilled to announce that there is no charge to use the platform for BMF members.

At Bathshack, we have been using the DMC platform for approximately six months, during which we have typically moved two to three containers per week, primarily from China.

The system consistently delivers quotes from forwarders quickly, and this month alone we achieved cost savings of around 15%. The like for like comparison feature makes it easy to review options, significantly reducing the time spent engaging with multiple forwarders - now the most competitive quote secures the job.

Onboarding was straightforward, and we were also able to invite our existing forwarders onto the platform to ensure continuity and maintain strong relationships.

DMC is proving to be a big win for us!
