## An introduction to Full Power Utilities

Full Power has provided commercial energy services to UK businesses for over 25 years.

They are an established, independent, whole-of-market energy consultancy, offering competitive procurement for SMEs, mid-market companies and corporates, recognised in the industry as 'Premier' brokers.

With access to over 50 utility suppliers, they ensure your organisation is matched with the right one to meet your expectations.

## Benefit from BMF Energy

The BMF recognises the challenges being faced by its members, with ever-increasing energy bills.

Each element of BMF Energy allows us to help minimise the impact of these costs for all BMF members.

**Here's what's included:**

### STRATEGIC ENERGY PROCUREMENT AND CONTRACT MANAGEMENT

Through BMF Energy, you will gain full access to Full Power's pool of suppliers, including several that do not sell directly to end users. Plus, you can benefit from a range of procurement strategies:

- **Fixed term**
- **Mid-term review**
- **Flex procurement**

As well as securing access to Full Power's suppliers, the BMF Energy team will also consolidate your gas and electricity meter portfolio to a common contract end date when necessary. This helps you reduce admin and increase collective purchasing power.

### BILL VALIDATION

To effectively manage your energy costs, it is important to regularly validate the bills being issued by your energy supplier(s). BMF Energy can provide a platform to automate this process, saving you time and money.

### ENERGY EFFICIENCY

BMF Energy also offers a range of solutions to reduce how much gas and electricity you consume, including:

- **Solar installations**
- **LED lighting retrofits**
- **Building energy management systems**

### WATER PROCUREMENT

As well as energy services, the BMF Energy team can review your water requirements and help you achieve further savings with Full Power's pool of water suppliers.

## Your exclusive benefits

In teaming up with Full Power, the BMF has secured three **EXCLUSIVE** benefits, only for **BMF members**:

### **FREE ENERGY CONTRACT REVIEW**

Our team will conduct a **full paper audit** of your existing energy contracts, providing **impartial advice** on existing tariffs and billing errors.

### **FREE kVA ANALYSIS REPORT**

We conduct a **kVA analysis** on 'half-hourly' supply points to ensure your existing allowances are **optimal** and **reduce** those not being fully utilised.

### **THE 'BMF BUYING BASKET'**

This long-term project allows **Full Power** to **negotiate harder** with their suppliers to achieve more **competitive rates**.  
**The more BMF members** who join, the more pressure we can apply.

# What our members say

Here are how BMF members have benefitted from our BMF Energy partnership with Full Power Utilities.

## Elliott Brothers

This builders merchant, based in Hampshire and Dorset, needed to ensure their energy procurement strategy not only secured competitive supply rates, but reduced the admin time involved with ongoing contract management.

Full Power Utilities delivered:

- **Gas and Electricity procurement**
- **Portfolio consolidation**
- **Contract alignment**
- **Consumption analytics**

Since the partnership began in 2020, Elliott Brothers has achieved £2,913 in procurement savings to date.

## LBS Builders Merchants

This South Wales-based business needed to secure the most competitive rates available when they were 'out of contract' with their incumbent supplier.

Full Power successfully provided them with:

- **Gas and Electricity procurement**
- **Portfolio consolidation**
- **Contract alignment**
- **New meter connections**

Since the partnership began in 2019, LBS has achieved £6,632 in total savings to date.

## They saved us a lot of time and money

*"The staff at Full Power managed to secure us a more competitive quote than the other brokers participating in the tender process.*

*They also worked hard to co-align our contracts and arrange new meter connections. In doing so, they saved us a lot of time and money. LBS would be happy to recommend Full Power Utilities".*

**Philip Evans**, Finance Director, LBS Builders Merchants
